

Cheer total to the end of March 2017: 147200 bits so ~\$1472

An important note: in early March DSP enabled "tipping" aka direct PayPal donations. These obviously aren't noted in chat & might only be noted on video if they occur during a stream.

No way to track them reliably so this means DSP is taking in more than it appears.

Someone used a streamlabs cheering emote this month, doing some research I found out beyond cheer/kappa/kreygasm/swiftrage there's also streamlabs & muxy ones: <http://i.imgur.com/B21oNRQ.gif>  
I have checked through all logs to this point & I've missed none of these cheers.

Thanks to my alternate client needed to log resubs, I can confirm that these cheers went through by checking for a "bits=####" portion. Example for the first cheer for 100 bits:

[13:15] <eternia\_\_\_\_forever> cheer50 Phil! I have spoken to those in the free dom chat, and SkyClaw, JackieChin and the others seem cool enough to befriend. Let's make peace with them. Let's turn this channel into the bastion of freedom!

[13:21] <eternia\_\_\_\_\_forever> cheer80 Phil, you should embrace the free dom chat people. They really do want to make peace. I took it upon myself to go talk to them, and Skyclaw personally asked me to come back and cheer and try to get the relationship fixed. Let's make this chat, the "free dom c h a t" :)

[13:31] <eternia\_forever\_> cheer50 Phil, we need to embrace Free dom chat.I know you don't want to talk about it while playing, but having them on our side is very very important. They are bastions of freedom, and if they join us, the detractors like the SOK will be stopped. Freedom c h a t hates the SOK.
